

EQUIP Visitors' Weekend

November 14-15

Explore How You Can Join or Partner With EQUIP

Who the weekend is for:

- Potential EQUIP Participants
- Missions Organizations
- Potential Sending Churches
- Those who want to learn about EQUIP

"Experience is the best teacher"

The primary goal of our 10-month EQUIP missionary training is for participants to gain significant amounts of hands-on ministry experience under the guidance of experienced coaches and church planters. Participants will also learn: principles that will lead to reproducible church planting, how to create a philosophy of ministry, church planting movement (CPM) strategy, how to engage diaspora groups in international cities, how to function on a multi-agency team, and much more!

Come and see what EQUIP is like first-hand! Join us for this visitors' weekend and see if you, your church, or your organization would be interested in partnering with us (or joining us for our next EQUIP Session!).
